THE ART OF SPACE AND SUBSTANCE BY ADELI

STANDING AMONG THE TOP 100 INTERIOR DESIGNERS OF THE WORLD FOR 2025, AWARDED BY LUXURY LIFESTYLE AWARDS, THERE IS ADELI. FOUNDED BY SIAVOSH ADELI, THE FIRM CARRIES A DISTINCTLY SWISS CHARACTER, REPRESENTING A REFINED APPROACH TO DESIGN AND ARCHITECTURE, GROUNDED IN RELIABILITY, PRECISION, AND EXCELLENCE. THOUGH COSMOPOLITAN IN SCOPE, ADELI'S CREATIVE EXPRESSION REFLECTS THE DISCIPLINE AND INTEGRITY THAT DEFINE SWISS CRAFTSMANSHIP, ENSURING EVERY PROJECT CONVEYS AUTHENTICITY AND PURPOSE.

"It's a great honor and a proud moment for me and my entire team. This recognition celebrates years of dedication and passion for creating meaningful spaces that combine Swiss precision, emotion, and global inspiration," commented the company.

From Vision to Reality

Under the philosophy of Inspiration in Architecture & Design, Adeli bridges imagination and functionality. Each space becomes a story, carefully conceived, structurally sound, and emotionally engaging. "My philosophy is built around 'Inspiration in Architecture & Design.' For me, architecture is not just about structure: it's about emotion, balance, and storytelling. Every project begins with an idea, a feeling, and evolves into a dialogue between art and function," shared the company.

The studio's ethos is rooted in close collaboration with clients, where every element serves a thoughtful intention. Materials are chosen for their integrity, proportions are studied with care, and environments are composed to stand the test of time.

Adeli's team remains closely involved at every stage of production, working directly with artisans and selecting the finest specialists in each field. This hands-on process ensures an exceptional standard of quality and authenticity that has become synonymous with the Adeli name.

Defining Spaces of Distinction

Since its founding in 2008, Adeli has created a wide array of architectural and interior projects that go beyond traditional design. The firm's work often transforms spaces into cultural and functional landmarks.

"One of the most meaningful projects for us was The Emirates Room at the United Nations in Geneva. It was an incredible journey; we competed in an international design competition among several European architects, and winning it was a true milestone," the company reflected. "The challenge was not only to design something exceptional but also to deliver it on time, within a strict international schedule. We traveled across countries to source the best specialists and materials, coordinating every detail to ensure the project was completed exactly on the day of the official inauguration, and we did it." Explained the team.

Among these are:

- The Emirates Room (United Nations Office in Geneva)
- Fédération Equestre Internationale Headquarters (Lausanne - client Princess Haya)
- UNHCR (Tech Coffee)
- First Abu Dhabi Bank (Geneva)
- UAE Permanent Mission Offices
- Miraal Dunes Hotel (Abu Dhabi - project under development)
- Villa Dubochet (famous historical Villa in Clarens - Montreux)
- Mövenpick Ice cream Pavillon - Montreux

Each of these projects illustrates the firm's ability to merge creativity with purpose, turning architectural challenges into meaningful environments that reflect both local and global perspectives.

Designs that Speak of Innovation

Beyond architecture, Adeli explores the relationship between form and function through product and furniture design. His creations balance sculptural presence with practical use, transforming objects into conversation pieces. Some of these signature designs include:

- ALLIANCE - A concept for a sofa set inspired by 3 key design eras: Louis XV, Bauhaus, and Vintage.

- AQUARIUM - Furniture concepts inspired by the grace and fluidity of the most beautiful fish.
- STRING GAME - A furniture collection exploring the tension and elasticity of form, echoing the playfulness of string and movement.
- INTOTHEPERS - Furniture concepts inspired by the geometry and rhythm of deconstructivist forms.
- F-EGG TABLE - A table concept inspired by the natural purity and balance of a fried egg, merging organic form with contemporary design.
- RUG DESIGN - A series of rugs featuring graphic compositions and deconstructed shapes, turning texture and pattern into storytelling.
- LOUIS VUITTON - Conceptual showcase for the famous brand
- EBEL - Watch display & presentation concepts.
- BRITISH AMERICAN TOBACCO - Creation of premium retail environments.

These works illustrate Adeli's passion for authentic materials and pure forms, where design serves both expression and experience. "The challenge is to create something truly authentic in a world of trends. Every project must have a soul. We focus on craftsmanship, material honesty, and emotional resonance, ensuring that each space remains timeless, not just beautiful," added the company.

Between Vision & Reality

Adeli's work exemplifies the precision, creativity, and reliability for which Swiss design is known. His approach, rooted in collaboration, guided by inspiration, and executed with rigorous attention to every detail, transforms architecture and interior design into an enduring art.

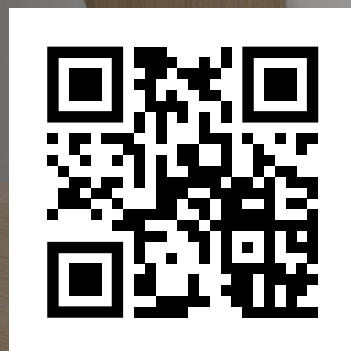

"I believe the future of architecture lies in sensitivity, creating spaces that connect people, culture, and emotion. Our goal is to continue expanding globally while staying true to our Swiss roots: precision, integrity, and excellence," concluded the company.

Through his projects across Switzerland and beyond, Siavosh Adeli continues to define a distinctive language of design that connects innovation with authenticity, creating spaces that resonate far beyond their walls.
